MZ Mills

MZ, Matrix/PDC Mills

As with all of our thru-tubing mills our MZ series can be custom fabricated to suit your application.

Above is a 2.500" MZ-54 set with 8mm PDC and maximum junk slot area and gage pads set with 10mm TSD and rounded edges for minimal free rotating torque.

Above is a 5.500" MZ-48G 8 blades set with 10mm PDC's with an extended gage with rounded edges for minimal free rotating torque. Face with six directed fluid ports.

MZ mills are available with 3, 4, 5, 6, 7, 8, or 10 blades set with 13mm, 10mm, 8mm, or 6.4mm PDC Cutters that are purpose-built for long intervals of cement, hard scales, composite plugs, and some formations.
